MINUTES FOR MARCH CONTRACTOR SAFETY MEETING March 6, 2014

- John Lindsay (Jacobs FOSC Safety)
 - Presentation on SSC Hot Work Program.
- Daryl Kosturock (Bastion Safety)
 - Presentation on February 2014 construction safety findings, close calls and mishaps.
- Questions and answer session.
 - There was one question as to why a Hot Work Permit was now being required during the use of a band-saw. Without knowing the exact circumstances, there are times when a Hot Work Permit may be required based on the type of activity performed and proximity to a propellant system, regardless to whether it was or was not required in another area that is not classified as hazardous.
