SAFETY TALKS!

For The Oil & Gas Industry

Everyone's A Safety Inspector

A collection of safety-related items including a fire extinguisher, a gas detector, a flashlight, a notebook, and a power outlet, arranged on a dark blue background.

SAFETY**

SAFETY TALKS!

For The Oil & Gas Industry

Hazards lurk out of sight and out of mind
Until something serious happens
Assign many people to look for them
Safety inspection is part of your job
