# Construction Safety Report: 01 December – 08 December 2019

---

**Findings: 0**

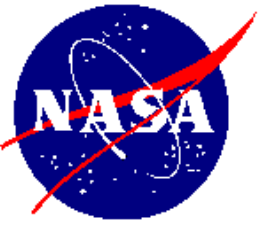

**Level 1 Severity : 0**

(Corrected on the spot)

**Level 2 Severity : 0**

(Corrective action documented)

**Mishaps: 0 / Close Calls: 0**

# Construction Safety Report: 09 December – 13 December 2019

---

**Findings: 0**

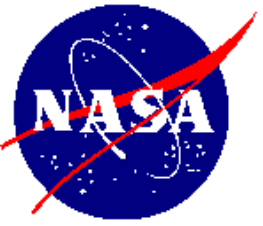

**Level 1 Severity : 0**

(Corrected on the spot)

**Level 2 Severity : 0**

(Corrective action documented)

**Mishaps: 0 / Close Calls: 0**

# Construction Safety Report: 16 December – 20 December 2019

---

**Findings: 0**

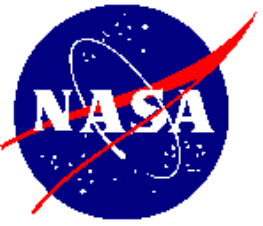

**Level 1 Severity : 0**

(Corrected on the spot)

**Level 2 Severity : 0**

(Corrective action documented)

**Mishaps: 0 / Close Calls: 0**

# Construction Safety Report: 23 December – 31 December 2019

---

**Findings: 0**

**Level 1 Severity : 0**

(Corrected on the spot)

**Level 2 Severity : 0**

(Corrective action documented)

**Mishaps: 0 / Close Calls: 0**

# Public Awareness Notice

## Natural Gas Notice

Stennis Space Center owns and operates a master meter natural gas distribution system. The gas system consists of an underground network of pipelines. The pipeline system has the capacity to reliably deliver natural gas to the buildings. The hazards of natural gas are it is odorless, colorless, tasteless, lighter than air and can ignite and/or explode with tremendous force when mixed with the right amount of air.

### Prevention measures taken include:

- Adding odorant to the gas to give it that distinctive smell, similar to rotten eggs, to warn us of its presence,
- Testing the odorant level each calendar quarter
- Performing annual gas leakage surveys, and Conducting periodic pipeline patrols.

### The following are signs that may indicate a gas leak:

- A hissing or roaring sound (caused by escaping gas),
- A patch of dead or discolored vegetation in an otherwise green setting along a pipeline route,
- Blowing dirt, grass or leaves near a pipeline
- Continuous bubbling in wet, flooded areas
- A "gas smell", similar to rotten eggs.

Anyone who may smell this odor or notice any unusual conditions on or near gas mains, vents, service lines, meter sets, or especially inside of a building should call (228) 688-3636 immediately. If you smell a strong gas odor inside a building, notify everyone in the building to leave. Do not operate any switches or use the phone. Go a safe distance away upwind of the gas smell then notify Security/Dispatch (228) 688-3636.

To obtain additional information call (228) 688-2263. To report gas related issues, call (228) 688-3293. In an emergency call (228) 688-3636.
